

Running an Inquiry

1. To perform a new inquiry, select the  **Tab** from the left sliding menus.

2. Then select the **Inquiry Icon**.

3. Then select from **New Icon** the top horizontal graphical menu.

4. You may be prompted to enter a control number for the inquiry. This is an identifier you will use to index this inquiry and make it unique from all others.

5. You may search by Plate number, VIN, or Title Number (**make sure syntax for specialty plates is correct**).

6. Once all fields are gray, you may select **Transmit** from the top horizontal graphical menu to retrieve the inquiry.

7. The inquiry information will now display on screen to be printed or automatically print depending on your inquiry settings.

Looking up an Existing Inquiry

Please note that previous inquiries are not saved for an indefinite amount of time, and are only saved to the PC it was originally run on

1. To view an inquiry you have done in the past so you do not need to connect to the Illinois Title & Registration databases again, select the  **Tab** from the left sliding menus.

2. Then select the **Inquiry Icon**.

3. Highlight the inquiry and choose **Display** to print preview it, or select **Print**.

Common Plate Syntax's <i>(The Example Plate # Being 123456)</i>
